Health Department Offering Later Hours on the First Monday of Every Month Starting February 5, 2024

The St. Clair County Health Department and Teen Health location will offer later hours on the first Monday of the month starting Monday, February 5, 2024. Hours of operation will be 10:00am-6:30pm. In addition, the Environmental Health Division will offer extended hours on the first Monday of the month from 8:00am-6:30pm, also starting February 5, 2024.

Normal hours of operation, 8:00am-4:30pm, will occur on all remaining Mondays and Tuesday through Friday.

“After careful review of our previous Monday weekly schedule (10:00am-6:30pm) we determined the new year was a suitable time for a change”, explained Liz King, Health Officer - Director of the St. Clair County Health Department. King continued, “Through staff feedback we received as well as analysis of our client interactions/traffic on Mondays, shifting to one late night a month was appropriate.” King also emphasized, “To accommodate the needs of the community, we will definitely reevaluate adding additional later hours back into routine operations seasonally and as situations demand such as back-to-school time or preparation for flu season.”
