

## **MEDIA RELEASE – OPINION-EDITORIAL**

**DATE: MAY 13, 2025**

**TIME: 10:00 AM**

### **St. Clair County Health Department – Opinion-Editorial New Address, Same Commitment to Quality Public Health Services**

After more than 40 years of serving our community from 3415 28<sup>th</sup> Street in Port Huron, the St. Clair County Health Department (SCCHD) is embarking on an exciting new chapter. We are moving to a new location, one that will better meet the needs of our community today and for decades to come. While we will miss many things about our current location, along with many fabulous memories, the excitement is real!

You might think of us as the same department your grandparents and parents once visited, however we've grown and adapted alongside the needs of our community. From providing routine core services to tackling emerging health threats, our commitment to promoting health and preventing disease has never wavered. It's only strengthened.

This move isn't just about a change in scenery. It's about providing the highest quality service in a modern, accessible, and welcoming environment. As public health challenges evolve, so too must the spaces from which we respond. The new building space offers enhanced resources, improved accessibility, and a more efficient layout to better serve everyone.

SCCHD's work is a shared effort—made possible by the dedication of staff, the support of community leaders, and the trust of every individual we serve. Our new location is designed to better serve residents, because when the health of one improves, the health of all improves. This move reflects our commitment to serving every corner of the community with the care, compassion and quality you deserve, outlining our theme **"We Are ALL Public Health!"**

We are deeply grateful to our community for its support throughout this transition. This move wouldn't be possible without the collaboration and understanding of everyone we serve, and we are excited to continue providing the care you deserve. Your patience, encouragement and trust during the upcoming move will be needed and appreciated.

While the address may be changing (220 Fort Street, Port Huron), our dedication to your health and well-being remains constant. We're excited to continue offering the same trusted services you know—just from a new, improved location.

Stay tuned for more details about our grand opening. We can't wait to welcome you to our new home!

We are ALL Public Health!

Liz King, RN, BSN  
Health Officer - Director  
St. Clair County Health Department
